- 6cm Round Cookie Cutter
- 4cm Round Cookie Cutter
- Large plain round piping nozzle or 3cm cookie cutter
- 6 Vanilla Cookies

## STEP 1 - SPIDER BODY

- a) To create a spider body, roll 70g Black Satin Ice 3-4mm thick. Place the textured sheet on top of the fondant. Rub a rolling pin over the textured sheet to create an impression.
- b) Carefully peel away the textured sheet.
- c) Using the large end of a piping nozzle or the 3cm cookie cutter, cut 6 discs.
- d) Place the piping nozzle or cookie cutter over 2/3 of each circle. Cut 6 crescent shapes.

## STEP 2 - SPIDER LEGS

- a) To create the spider legs, roll the remaining Black Fondant 2-3mm thick. Cut 6 discs using the 4cm round cookie cutter.
- b) Place the same cookie cutter almost to the edge of each disc and cut a thin curved shape. Repeat this step cutting a slightly smaller curved shape.
- c) Cut two more curved shapes on the other side of the disc. Lay two pieces together in a "U" shape on baking paper. Mirror this with the next two pieces pointing down.
- d) Paint a small dab of water on the spider legs and place body on top. Set aside to dry.

## STEP 3 - FINISHING TOUCHES

Roll the remaining black fondant into small balls. Roll white fondant into balls slightly smaller than the black ones. Attach the white to the black with a tiny dot of water.

Roll the Orange Satin Ice 2-3mm thick. Using 6cm round cookie cutter, cut 6 discs. Roll Bright Green Satin Ice 2-3mm thick. Using 4cm round cookie cutter, cut 6 discs. Use a palette knife to carefully lift and place these onto baking paper. Set aside to harden.

Paint a small dab of water in the middle of the Orange Fondant Circle. Carefully place the Bright Green disc on top. Paint a small dot of water in the centre of the Bright Green disc. Attach your Spider with a small amount of water or icing. Happy Halloween!
