About

Roberts Edible Craft is a 100% Australian owned manufacturer, wholesaler and distributor of edible craft and decorating supplies.

Roberts Edible Craft was established nearly 40 years ago in the 1980s. Historically we were known as Roberts Confectionery and started our early days at the Dandenong Market and Oakleigh factory, in Victoria. It was the first company to introduce Australians to the concept of DIY chocolate making. We still have customers to this day that remember the delicious tubs of fillings and flavours that found their way into their home pantries.

From those early beginnings, Roberts Edible Craft has grown into the company it is today. Supplying an extensive range of cake decorating, chocolate making and edible crafting products throughout Australia, New Zealand and International.

You can find us in major craft retailers as well as private and independent store fronts, on-line sellers, commercial distributors and private label.
